

Module 1 Project

Part 1 (Finding Patterns):

App name: EatNow

Part 2 (Work Breakdown):

MVP:

1. Find Restaurants close by
2. Show the menu of each of those restaurants
3. Have a delivery option available
4. Show ratings of restaurants available
5. Work with restaurants to be able to send them orders

User Stories:

- As a person with not a lot of time I would like the most streamlined and simple ways to order food possible
- As a person who doesn't cook I would like to have options for healthy foods
- As a person who would like to be able to eat on the go I would like to not have to eat only fast foods
- As a restaurant I would like to be able to serve my customers as accurately as possible
- As a restaurant I would like to reach as many customers as possible
- As a restaurant I would like people to see healthy options that we offer
